

If you would like to have the Team Schedule on your phone and have it updated anytime the coach or scheduler makes a change, you can follow these directions.

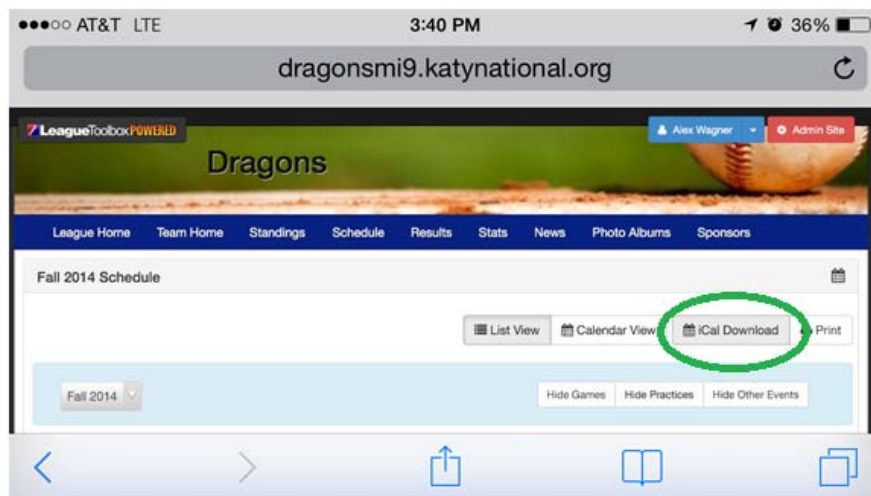

On your phone, you need to go to the KatyNational.org website and click on the “Schedule” link at the top.

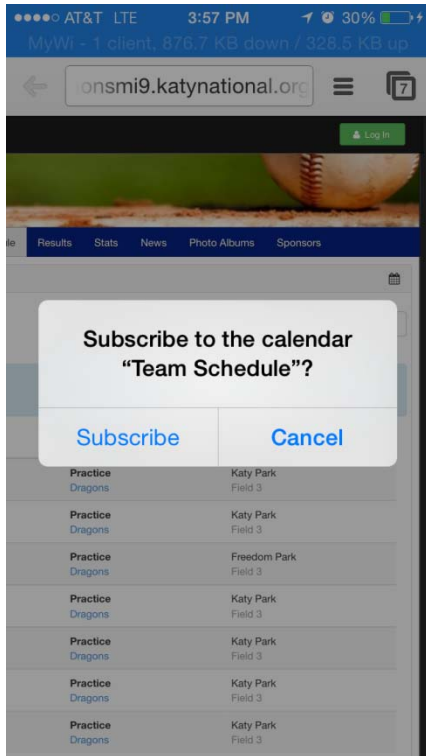

Choose the drop down and select your division.

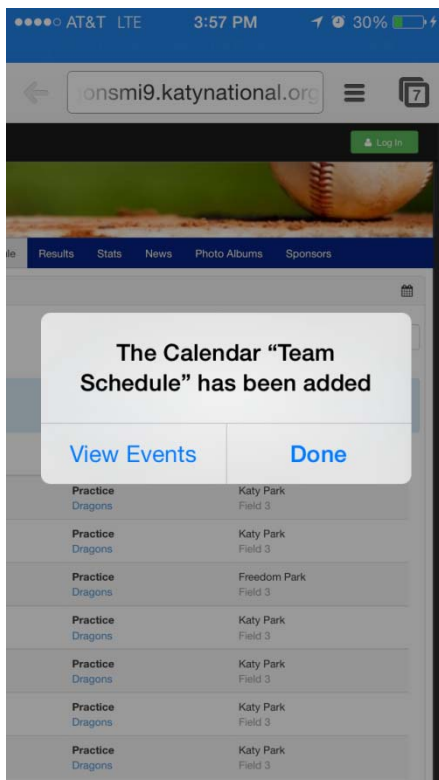

You will see your Fall Schedule listed below. In the top right corner of your schedule, you need to touch the button that said “iCal Download”.

You will be prompted to subscribe to the calendar.

After hitting subscribe, it will notify you that the calendar has been added. Select "Done".

Open your Calendar program on your phone and in the settings, you should see the calendars that your phone is viewing. "Team Schedule" will be your calendar.
